- .NET
- Learning Technology

EDUCATION

Bachelors Of Information Technology Victoria University

2020-2022

Diploma and Advanced Diploma of Information Technology Australia Institute of Business and Technology

2018-2020

PROFILE

I am an experienced Front End Web Developer with extensive knowledge of the latest technology trends and a focus on producing visually appealing website designs. I am skilled in both technical and creative aspects of front-end web development, with a passion for continuous learning and growth. I am adept at collaborating with cross-functional teams and possess strong problem-solving and analytical skills. As an aspiring React Developer, I have completed various projects demonstrating my proficiency in React, including responsive designs and user authentication. I am eager to work collaboratively with a team to build engaging web applications that exceed client expectations, with a strong foundation in HTML, CSS, and JavaScript.

WORK EXPERIENCE

Personal Portfolio Website

<https://krishnapaudel.netlify.app>

03/2022-04/2022

- Components are build using React and Tailwind
- Animations are done using Keyframes and GSAP

- Web app built using MERN stack
- CRUD operations
- Face recognition done using face.js

CONCLUSION

I am a highly motivated learner, always eager to expand my skill set and take on new challenges in my coding career. While I have a strong foundation in a specific set of skills, I am open to exploring opportunities both within and outside of my current boundaries. I am committed to continuously improving my abilities and contributing to the success of any project or team I am a part of.
